Part-time Study

Balance study with work or family life
Study mathematics part-time at DIT

- Higher certificate, H Cert
- Ordinary degrees, BSc (Ord)
- Honours degrees, BSc (Hons)
- Postgraduate degrees, MSc, MPhil, PhD
- Continuing Professional Development (CPD) programmes & modules
Why study mathematics?

- How do you model an epidemic?
- Is my credit card safe on the internet?
- How is air traffic scheduled?
- Can you predict tsunamis?

Mathematics has answers to all these questions!

Is it for me?
Yes, anyone can study mathematics with careers in industry, research, finance, data analysis, teaching ...

- Learn transferrable skills, vital for modern analytical roles
- Employers require strong mathematical abilities
- Mathematics is everywhere
School of Mathematical Sciences

DT205 Mathematical Sciences
DT220 Industrial Mathematics

- 4 year BSc honours degrees
- Highly-skilled, flexible, industry-ready graduates
- Analyse and solve real-world problems
- Students from all backgrounds
- Technology-enhanced modelling
- Work placements, case studies and flexible choices

“... I now have a choice of careers ahead of me”
(Alan, graduate)

“A degree in maths can open doors”
(Sean, graduate)

“The wide range of subjects available that are real world applicable ... are ideal for what employers want to see on a CV”
(Alan, graduate)

“The course strikes the perfect balance ... I would recommend this course to anyone”
(Keith, graduate)
